**COPYRIGHT TRANSFER STATEMENT**

.....  
.....  
.....

(the name of the Participant acting alone or the name of the Participants taking part in the contest together)

Submitting the Application for the contest for Concept of „The scientific and didactic building Ochota Campus (PSYCHOLOGY, COGNITIVE SCIENCE, PSYCHOPHYSIOLOGY)” in Warsaw, I (We) declare, that:

- I (We) agree to present contest design at the post-competition exhibition and to distribute it in particular through public exposure, display, and making available in such a way that everyone can access it at the place and time chosen by the Ordering Party, reproduction and publication (multiply) by any technique without compensation to their authors (author make-ups);
- In the case my project is awarded in the contest by prize, once the awards have been paid, I (we) transfer to the Ordering Party the copyright ownership of the awarded project, including copyright dependent rights to the awarded contest design, according to the conditions described in the Competition Rules, especially in the following spectrum of using it:
  - a) right to develop a work, in particular its modification or adaptation. Each such work will be entrusted to the author of the work, as long as it is performed in accordance with the recommendations of the Contest Jury or Ordering Party and without additional remuneration,
  - b) rights to work on the contest design which means creating depending works, especially architecture, construction and implementation projects. However, asking a person other than the author to work on the contest project, which will be the award in the contest, can happen only when a public procurement contract has not been signed in the case there is a change of circumstances making the completion of the investment no longer of the public use, if it was impossible to predict such situation before the onset of the public contract awarding procedure. The Ordering Party may not sign a contract also, if as a consequence of negotiations led in the negotiation mode without an
